WRITTEN OPINION OF THE
INTERNATIONAL SEARCHING AUTHORITY

International application No.
PCT/US04/39431

Box No. V. Reasoned statement under Rule 43 bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims <u>1-20</u>	YES
	Claims <u>NONE</u>	NO
Inventive step (IS)	Claims <u>1-20</u>	YES
	Claims <u>NONE</u>	NO
Industrial applicability (IA)	Claims <u>1-20</u>	YES
	Claims <u>NONE</u>	NO

2. Citations and explanations:

Claims 1-20 meet the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest sending and receiving no-op media payload packets and receiving media path quality information associated with the no-op media payload packet (claim 1); send or receive packets formatted for carrying a media payload but containing no media payload and sending or receiving a media stream according to transmission information associated with the packets (claim 11); sending RTP payload packets that contain no media payload, sending back a RTCP report that contains media path information for the sent RTP packet (claim 18).

Claims 1-20 meet the criteria set out in PCT Article 33(4) and thus have industrial applicability because the subject matter claimed can be made or used in industry, particularly the computer networking industry.
